Subject: Ice Cream

Hi Susan,

Sorry about that possibly confusing phone message! I was surprised that Employee Lookup doesn't list my phone number, which is [REDACTED].

A few of us in Tech Pubs have volunteered to put up the Ice Cream posters and help serve it on Thursday. We're meeting today at 2:30 to make plans. Our [REDACTED] does not have a freezer, so we need to make other arrangements for keeping the ice cream cold. Will we need to store large buckets of ice cream? Regular 1/2 gallon containers? or what? Also, will someone be bringing it here, and if so, when... i.e., how long will we need to store it? Anything else we need to know?

Thanks!

[REDACTED]

Hi Susan,

We have three people here at El Dorado who have agreed to bring a medium-to-large ice chest on Thursday. Do you think that will be enough, or should I try to round up a few more volunteers to bring one? We were also wondering, will you be bringing ice for the coolers too, or do we need to fill them with ice before you get here?

Thanks,

[REDACTED]

Hey [REDACTED],

That's great! 3 should be enough if they are on the large side of medium... if they are on the smaller side of medium, you might want to get one or two more. :)

I will bring Dry Ice along with the Ice Cream... What I may do, is come to Eldo first and get the chests from you, that way we can just pack the ice cream and dry ice in the chests at the place where we pick it up. :)

Susan.
